Independent verification report

To the shareholders of Laninver SHC, S.L.

Pursuant to Article 49 of the Code of Commerce, we have verified, under a limited assurance scope, the State of non-financial information ("NFIS") for the year ended 31 December 2019 of Laninver SHC, S.L. (Parent company) and subsidiaries (hereinafter "the Group" or "Laninver") which forms part of Laninver’s consolidated management report, presented in a separate document.

Responsibility of the Board of Directors of the Parent company

The preparation of the NFIS included in Laninver’s consolidated management report and the content thereof are the responsibility of the Board of Directors of Laninver SHC, S.L. The NFIS has been drawn up in accordance with the provisions of current mercantile legislation and with the Sustainability Reporting Standards of the Global Reporting Initiative ("GRI Standards") in line with the details provided for each matter in the chapter “8. Regarding the Non-Financial Statement – Table required by Law 11/2018 of 28 December” of the mentioned NFIS.

This responsibility also includes the design, implementation and maintenance of the internal control considered necessary to allow the NFIS to be free of any immaterial misstatement due to fraud or error.

The directors of Laninver SHC, S.L. are also responsible for defining, implementing, adapting and maintaining the management systems from which the information required to prepare the NFIS is obtained.

Our independence and quality control

We have complied with the independence requirements and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants ("IESBA") which is based on the fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies the International Standard on Quality Control 1 (ISQC 1) and therefore has in place a global quality control system, which includes documented policies and procedures related to compliance with ethical requirements, professional standards and applicable legal and regulatory provisions.

The engagement team has been formed by professionals specialising in non-financial information reviews and specifically in information on economic, social and environmental performance.
Our responsibility

Our responsibility is to express our conclusions in an independent limited verification report based on the work carried out. Our work has been carried out in accordance with the requirements laid down in the current International Standard on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements Other than Audits or Reviews of Historical Financial Information (ISAE 3000 Revised) issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC) and with the Guidelines for verification engagements on non-financial statements issued by the Spanish Institute of Auditors ("Instituto de Censores Jurados de Cuentas de España").

In a limited assurance engagement, the procedures performed vary in terms of their nature and timing of execution, and are less extensive than those carried out in a reasonable assurance engagement. Accordingly, the assurance obtained is substantially lower.

Our work has consisted of posing questions to Management and several Group units that were involved in the preparation of the NFIS, in the review of the processes for compiling and validating the information presented in the NFIS, and in the application of certain analytical procedures and review sampling tests, as described below:

- Meetings with Group personnel to ascertain the business model, policies and management approaches applied, the main risks related to these matters and to obtain the information required for the external review.
- Analysis of the scope, relevance and integrity of the contents included in the NFIS for 2019, based on the materiality analysis carried by the Group and described in chapter "8. Regarding the Non-Financial Statement – Table required by Law 11/2018 of 28 December" of the mentioned NFIS, considering the content required under current mercantile legislation.
- Analysis of the procedures used to compile and validate the information presented in NFIS for 2019.
- Review of information concerning risks, policies and management approaches applied in relation to material issues presented in the NFIS for 2019.
- Verification, through sample testing, of the information relating to the content of the NFIS for 2019 and its adequate compilation using data supplied by the Group’s sources of information.
- Obtainment of a management representation letter from the Directors and Management.

Basis of the qualified opinion

The Group does not include in its NFIS the following information and its evolution, as required by article 49.6 of the Commercial Code: average remuneration disaggregated by sex, age and professional classification or equal value; average remuneration of Directors and Managers disaggregated by sex; and, benefits obtained country by country.
Conclusions

Based on the procedures performed and the evidence we have obtained, except for the effect of the issues described in the section “Basis of the qualified opinion” of this Report, no matters have come to light that might lead us to believe that Laninver’s NFIS, for the year ended 31 December 2019 has not been prepared, in all its significant aspects, in accordance with the provisions of current mercantile legislation and the Sustainability Reporting Standards of the Global Reporting Initiative (“GRI Standards”) in accordance with the details provided for each matter in the chapter “8. Regarding the Non-Financial Statement — Table required by Law 11/2018 of 28 December” of the mentioned NFIS.

Use and distribution

This report has been drawn up in response to the requirement laid down in current Spanish mercantile legislation and therefore might not be suitable for other purposes or jurisdictions.
